FU-227/8/6E

Compressor with pump lubricated for life, therefore suitable also for intensive use, but which does not require the addition of oil.

A compressor that combines the long life of a lubricated model with the easy maintenance of an oil-free compressor. Equipped with a permanently lubricated pump that never requires any oil. Reliable starting even at extremely low temperatures (down to -20°C) and at low voltage, requiring only 150 V. Lightweight with a 6-litre air tank. Integrated handle built into the shroud for easy transport. Rubber feet provide excellent stability during operation.
