NB4/4CT/200

Professional two-stage belt driven compressor, ideal for heavy and continuous use.

Three-phase two-stage belt-driven compressor designed for intensive professional use. It features a high-efficiency 4 HP pump unit with cast iron cylinders and large manifolds for improved cooling, as well as an oversized intake filter engineered to reduce noise levels and optimize compressor performance. The robust plastic belt guard protects all moving parts. The 200-litre tank provides a large air reserve, while the four-wheel configuration, with two large wheels and two swivel castors, together with a convenient handle, ensures stability and easy maneuverability.
